stan@mestari designs.com

Let us turn your photographs into unique heirlooms by etching them into acrylic, wood, or granite. These make great gifts that can be cherished for years and can be passed down for many generations.

We can work with prints or digital images. High resolution images with even lighting produce the best results. We recommend a resolution of 300 dpi for digital images.

Please see our list of available products on the reverse side. Custom shapes and sizes are also available. Contact us for further details.

Photo editing is available for an additional \$15.00. We can remove the background, remove subjects (as long as they are behind the desired subject), and merge subjects.

Please highlight or circle your desired etching on the reverse side and fill out the information below.
